Supplemental materials

Supplemental materials for Ossanna & Gornish (2022), "Efficacy of labile carbon addition to reduce fast-growing, exotic invasive plants: A review and meta-analysis".

Table S1 & S2. Raw data
For Tables S1 & S2, see accompanying Zenodo archive under the same name as the paper title. The Zenodo archive also includes R Markdown documents detailing analysis and code.

Table S3. Systematic review: Publication types

Publication type	n	Percent (%)
peer-reviewed article	63	75.9
master's thesis	11	13.3
technical report	5	6.0
doctoral dissertation	3	3.6
conference	1	1.2

Table S4. Systematic review: Study regions

Region	n	Percent (%)
Rocky Mountains, USA	12	14.5
Great Basin, USA	11	13.3
southeast Australia	10	12.0
Midwest, USA	9	10.8
coastal CA, USA	8	9.6
Pacific Northwest, USA	8	9.6
central Canada	6	7.2
Great Plains, USA	5	6.0
Europe	3	3.6
HI, USA	3	3.6
northeast USA	2	2.4
South Africa	2	2.4
southwest USA	2	2.4
Gulf of Mexico, USA	1	1.2
Himalaya	1	1.2
Figure S1. Study duration for systematic review, where study duration is defined as months from the first C application to the last plant measurements.
Figure S2. Plot size for systematic review.

Table S5. Systematic review: C types

C type	n	Percent (%)
sucrose	42	50.6
sawdust	19	22.9
sucrose AND sawdust	11	13.3
activated carbon	2	2.4
mulch	2	2.4
straw	2	2.4
woodchip	2	2.4
dextrose	1	1.2
wood mulch	1	1.2
woodchip mulch	1	1.2
Figure S3. Average C rate for systematic review.

Table S6. Systematic review: Number of treatment combinations with C addition

Number of additional treatments	n	Percent (%)
1 additional treatment	33	39.8
C addition only	31	37.3
2 additional treatments	15	18.1
3 additional treatments	4	4.8

Table S7. Systematic review: Types of treatment combinations with C addition

Additional treatments	n	Percent (%)
native seeded	13	28.9
burn	11	24.4
tilling	5	11.1
water manipulation	4	8.9
soil amendment	3	6.7
cutting	2	4.4
fertilizer	2	4.4
grazing	2	4.4
hand-pulling	2	4.4
litter removal	1	2.2

Table S8. Systematic review: Inclusion of cost

Cost inclusion	n	Percent (%)
absent	51	61.4
mentioned briefly	18	21.7
discussed in context of results	9	10.8
quantitative estimate	5	6.0

[A] Duration since first application (exotic)   **Estimate [95% CI]**

Overall (k = 487)   −0.60 [−0.80, −0.40]
